décor elements

Introducing
our new
Décor Stencils
(page 22)!

dear friends.....

I'm thrilled with the additions to our Décor Elements I see in this catalog, especially the terrific variety—you'll find elegant and bold, fun and seasonal!

The line of sports images caught my eye—kids will love having their favorite sports featured on their bedroom walls. In fact, there are tons of images that are perfect for children's rooms, from dinosaurs and trains to flowers and fairies.

Our daughter Sage painted spots in Kona's room, and it took her quite a while, so the Spot On images made me think of her. What a time savings it would have been if she'd had those! I love the Pattern Blocks; they transformed that set of chest of drawers. Shelf Life is unique as well. And I haven't even mentioned the greetings, but I love adding quotes and thoughts on our walls. What a subtle but strong way to share with our families and the world what is important to us.

One thing I'm particularly excited about is the addition of stencils to our Definitely Decorative line; they bring out the artist in you! You can choose and mix colors, and use the same stencil over and over to create patterns on small or large walls, borders, or corners. It's one of the most affordable ways to add texturing and shading to your décor. I've stenciled in my stamp studio and love the look!

You'll love what you can do with these products. I hope you enjoy creating custom décor as much as I do!
