dear friends

As I write this, I'm finishing up a round of intense traveling to do Workshops of a Lifetime with demonstrators all over the United States and Canada. What a great opportunity this has been for me, and one of the things I've enjoyed most is the opportunity to enter people's homes and see their personality expressed through their home décor.

Much of what I've seen has been our Décor Elements; I've been surprised to see where some of these pieces have popped up, and I've loved seeing great imagination at work! Sometimes it's hard to envision these pieces at full size, and they catch my attention when I see them in real life. I thought of that as I looked through this catalog, noticing the new pieces and wondering where creative minds might be using these pieces in their homes! I can't wait to see. . . .

I can't mention all the new pieces, so be sure to check them out for yourself. You'll find quite a few new chalkboard choices (isn't that a fun product line?), new stencils (my favorite, of course—and they work great with the new Smooch Spritz®!), and lots of festive holiday offerings as well.

I especially enjoy using Décor Elements vinyl images to decorate during the holidays—it's so quick and easy to put up a few sayings, images, and decorations, and then they're just as quick and easy to take down! And they look so great!

And your choices aren't just limited to the holidays. I think you'll find a nice variety of choices for any room, any reason, any season! Celebrate the holidays—or any time of year—by making decorating easier than ever!
